Any platform. Any time.

dB Control delivers.

RADAR

TWT AMPLIFIERS | MICROWAVE POWER MODULES | POWER SUPPLIES

Trust dB Control with your high-power solutions for radar, ECM and EW threat simulation systems. Our TWT Amplifiers (TWTAs), microwave power modules (MPMs) and power supplies can be custom-configured for mission-critical ground-based, shipborne and high-altitude manned/unmanned airborne platforms. We utilize modular designs for rapid configuration to create power products that are reliable and easy to maintain. If your expectations are as high as your power requirements, contact us today.
