**Reliable RF  
power comes  
from precision  
manufacturing.**

**dB Control  
delivers.**

TWT AMPLIFIERS | MICROWAVE POWER MODULES | POWER SUPPLIES

Reliable, tightly packaged high-voltage transformers, TWTAs, MPMs and power supplies require precise assembly and proprietary potting and encapsulation. Since 1990, dB Control has designed, manufactured, repaired and refurbished the densest power supplies used by military and commercial contractors for mission-critical ground-based, shipborne and high-altitude manned/unmanned aircraft platforms. If your expectations are as high as your power requirements, contact us today.
